From: Walter Hartung

Thought you might get a kick out of seeing the road/field grader I saw today while out in the county at a friend's ranch, an Austin Standard Grader. I don't know much about it, but I have a board meeting tomorrow with the friend who owns it. I'm kind of curious. The ranch that it's on is about 125,000 acres. Maybe he has some additional Austin equipment.
